Kephart's writing is lyrical and evocative, capturing the depths of her despair and the slow, gradual journey toward healing. She writes about the early days of her grief, when she felt like she was drowning in a sea of sorrow. She writes about the numbness, the anger, and the overwhelming sense of loss that consumed her.

But even in her darkest moments, Kephart never gave up hope. She found solace in her writing, in her family and friends, and in the natural world. She learned to live with her grief, and she learned to find joy again.

Blue Genes is a powerful and moving memoir about the human experience of loss. It is a story that will resonate with anyone who has ever lost a loved one. But it is also a story of hope and resilience, a reminder that even in the face of unimaginable loss, it is possible to find healing and peace.
